

Rotator for Forklift

Forklift Rotator - There are different applications available for forklift attachments. For instance, the forklift rotator could help lifting, moving and rotating barrels and drums. Other attachments could be used to lift carpet rolls and cartons, for dumping sand or waste materials. Several of the most commonly used lift truck accessories are the clamp, side shifter attachments, fork positioner and rotator. These tools come in a variety of dimensions to fit a variety of forklift units. They are meant to hold really heavy items and are a benefit to numerous warehouse and factory settings.
