

Meritor Part

Meritor Parts - Meritor is a leading global supplier that is proudly established on a 100 year tradition of quality and service. They specialize in various modules, integrated systems and parts to original equipment makers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage in the worldwide operations. The company values their customers and wishes to ensure their success while anticipating their various requirements. Meritor starts with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over 11,200 people, Meritor promotes innovation and collaboration amongst a team of knowledgeable professionals.

By just employing future focused individuals, Meritor strongly feels these top-caliber workers will be able to rapidly get used to to changing surroundings and exhibit the commitment and performance considered necessary in order to achieve results in the competitive materials handling trade. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor offers their employees different possibilities for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering which include axles, drivelines, braking and suspension systems for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of their worldwide engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group that is committed to ensuring optimum progress at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 countries.

The supplier development network is specifically situated to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in each and every part of the trade. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is also comprised of transactional Green Belts who make use of Six Sigma tools to business techniques and implement lean methods.
