Clark Totalift, handles more than 120,000 particular items designed for 20 distinctive brands of forklifts and automated equipment. Your regional Clark Dealer is your complete source for availability of all your components requirements provided by Clark Totalift.

Clark has a exceptional Parts Distribution team. The items warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Globally, Clark has one of the most amazing dealer support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is now a standard feature on every lift truck.

Clark's relentless effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the world to be certified with the globally approved quality standard ISO 9001 for all of their manufacturing facilities. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the very economical and beneficial system of "Lean Manufacturing" for its assembly facilities and application of resources. This structure was established to acknowledge the most successful approaches of production facility management and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing expenses. The contemporary value engineering program combines innovative product improvement and delivers superior client support and service within the industry.
