

Electrical Parts for Forklifts

Electrical Part for Forklifts - Lift trucks and different lift trucks could have particular labels used in certain hazardous locations. The label denotes that this certain model of forklift meets the minimum standards of ANSI/UL 553 used for electric forklifts or ANSI/UL 558 for internal combustion engine lift trucks.

The use for labels utilized for lift lift trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Areas or Use, Maintenance and Operation, and Type Designations. Consult your local insurance provider and Fire Marshall for additional info regarding the permitted uses of industrial powered trucks in your application.

If the specific lift truck satisfies the outlined criteria, labels may be put. A labeled forklift would show the type of designation placed on the nameplate and will have a correctly corresponding label put.
